

# the Southern Centre

multi sensory experience

## Term Three Newsletter

2010

### New Staff Member

We are pleased to announce that Victoria Ball has joined the Southern Centre team. Victoria has worked in the disability sector for a number of years and also has a background in customer service.

### Southern Centre Renovations

As most of you know, the Southern Centre has been under construction since Anzac day. The UV corner is now where the sensory wall was, which has been donated to Brackenridge. Many of the walls have been repainted and we hope the new Movement Sensor will be operational by the end of June. Thank you all for your patience throughout our renovations.

The **Movement Sensor** is a unique piece of equipment, designed and made in Christchurch. It uses sensor technology to translate body movement into digitally generated sounds to provide a medium through which disabled people can become expressive and communicative using music and sound. Come along and check it out.

### KidsFest

KidsFest is back again this July holidays at the Southern Centre. This is an opportunity for children to join others and explore the multi sensory experience together. Bookings are essential, ph: 9418888.

### Funding for Individuals

The Canterbury Community Trust has established a "Making it Happen" Awards scheme. These Awards for individuals, are to assist in providing solutions, or opportunities for "Making it Happen", in situations where support funding can develop skills, change social attitudes and help extend and develop an individual's potential. To find out more, contact Ken Sowden, ph: 385 4449.
